8 <title>RAP DIGGER FRANCE - ACCUEIL</title>
9 <meta name = "description" content = "Avec rapdigger.fr, plongez avec douceur
dans le monde vaste et clivant du rap français !">
10 </head>
11
12 <body>
13 <div id="bloc_page">
14 <header>
15 <?php include("parties/header.php");?>
16 </header>
17 <h1> ACCUEIL </h1>
18 <h3> Bienvenue sur rapdigger.fr !</h3>
19 <div id="deux_elements">
20 <article>
21 <h1>"Vos préjugés sont vos fenêtres sur le monde. Nettoyez-les
de temps en temps, ou la lumière n'entrera pas."</h1>
22 <p class="droite"> <em> Isaac Asimov </em> </p>
23 <p class="alinea">L'objectif de RAP DIGGER est de vous aider à
nettoyer votre vitre. Cependant, l'effort doit venir de vous ... mais en accédant à
cette page, vous êtes sur la bonne voie ! Pour prolonger l'analogie, disons que ce site
est le chiffon en microfibrilles, c'est à dire l'outil (indispensable?) pour un nettoyage
efficace. </p>
24 <p class="alinea">Le rap est clivant : faisant pourtant partie
des genres musicaux les plus écoutés, il paraît inaccessible si l'on n'appartient pas à
une génération. Et cela s'explique par les nombreuses barrières qui ont été instaurées
au fil des années. </p>
25 <h4> Des barrières élaborées par le genre lui-même ?</h4>
26 <p class="alinea"> Le rap est peu accessible aux personnes non
initiées. Plusieurs explications peuvent être données: <br> <br>
27 - L'usage d'un vocabulaire original : souvent cru, parfois
grossier, mélangeant les langages, déstructurant parfois la langue française. Tout
comme l'ancien français constitue une barrière chez les collégiens qui veulent
découvrir l'oeuvre de Molière (j'ose la comparaison !), l'utilisation d'un langage
hybride non conventionnel est une barrière certaine à quiconque veut découvrir le rap
français. <br>
28 <br> - Son caractère populaire : trop souvent encore, la popularité
du rap est parfois perçue comme source de médiocrité. Il était autrefois difficile de
faire de la musique. Savoir jouer d'un instrument était réservé à une élite de la
population. Au XXème siècle se développent des genres musicaux moins exigeants, et le
rap en est l'apogée : la création musicale s'ouvre à celui qui déborde de créativité,
et pour lequel un micro et un ordinateur sont les seules restrictions matérielles. Même
le talent du chant, avec le développement du vocoder, n'est pas requis. Cette
accessibilité permet alors à n'importe qui de s'exprimer. <br>
29 <br> - Les stéréotypes : ce genre musical souffre d'un paradoxe. En
effet, nombreux sont ceux qui critiquent le rap, mais rares sont ceux qui en écoutent.
Ainsi, les "critiques" rap dans les médias traditionnels sont souvent de piètre
qualité, sans véritable connaissance du genre et plein d'"a priori".<br>
30 <br> - Sa modernité : le rap est un genre qui émerge dans les
années 80 aux Etats-Unis, et qui se développe à la fin des années 90 en France. Il
subit de fait les critiques de ceux qui ont peur de la nouveauté, à la manière du rock
dans les années 50.</p>
31 <h4>Comment détruire ces barrières ?</h4>
32 <p class="alinea">
33 L'objectif est moins de les détruire que de les surmonter.
Disons que dans ce processus, je joue le rôle d'échasse.<br>
34 L'objectif de cet outil est de vous immerger en douceur dans

```

```

l'inconnu. Ainsi, en choisissant minutieusement vos préférences sur la page
"Algorithmme", vous aurez accès aux albums qui sont susceptibles de vous plaire le plus.
</p>
35     <p class="aline"> Après seulement, prenez le temps de découvrir
ce qui ne vous attire pas au premier regard. Et qui sait ? Vous apprendrez peut-être à
comprendre les belles images qui sortent parfois de la plume du Duc de Boulogne, et
appréciez peut-être les voix "autotunées" des frères de Corbeil-Essone. </p>
36     <h4>Comment aller plus loin ?</h4>
37     <p class="aline"> Je vais écrire un article plus tard concernant
les sources que j'utilise pour approfondir mes connaissances en rap français, mais je
me permet d'en lister quelques unes dès maintenant :
38     <br> <strong>abcdrduson.com</strong> : magazine rap en ligne,
publication d'articles de fond sur le monde du rap accompagnés de nombreuses interviews
intéressantes.
39     <br> <strong>La Sauce sur oklm radio</strong> : podcast quotidien
arrêté en 2018, mais qui repertorie toujours d'excellentes interviews.
40     <br> <strong>Booska P</strong> : pour connaître toute l'actualité
du rap français.
41     <br> <strong>Le Code Radio</strong> : podcast hebdomadaire présenté
par Mehdi Maizi et publié sur Apple Music. Chaque semaine un récapitulatif des sorties
et une interview.</p>
42     <p class="aline"> Vous pouvez à présent tester le site. N'hésitez
pas à utiliser l'onglet "Contact" pour me faire part de vos impressions et suggestions
autant sur le "fond" que dans la "forme". Merci beaucoup et bonne visite !</p>
